International Warehouse Logistics Association believes that an organization-wide energy management approach will help enhance the financial health of organizations and aid in preserving the environment for future generations. International Warehouse Logistics Association recognizes the value of ENERGY STAR and will encourage our members to join the ENERGY STAR partnership. In partnership with ENERGY STAR, International Warehouse Logistics Association will encourage our members to:

- Measure and track the energy performance of facilities where possible by using tools such as those offered through ENERGY STAR;
- Develop and implement plans consistent with the ENERGY STAR Energy Management Guidelines to achieve energy savings;
- Help spread the word about the importance of energy efficiency to staff and the community;
- Support the ENERGY STAR Challenge, a national call-to-action to help improve the energy efficiency of America's commercial and industrial buildings by 10 percent or more; and

We understand that our commitment to encourage our members to measure, track, and improve the energy performance of organizations is supported by the resources and tools offered through ENERGY STAR. In addition, we understand that we will be recognized on the ENERGY STAR web site as a Partner and as a supporter of the ENERGY STAR Challenge. To be eligible for additional recognition, we will share with EPA our progress and milestone achievements. As a Partner, we agree to follow all applicable terms and conditions governing the use of the ENERGY STAR logos, which are registered trade and service marks.
